

HOW TO USE USSD CUNTION

NOTICE:

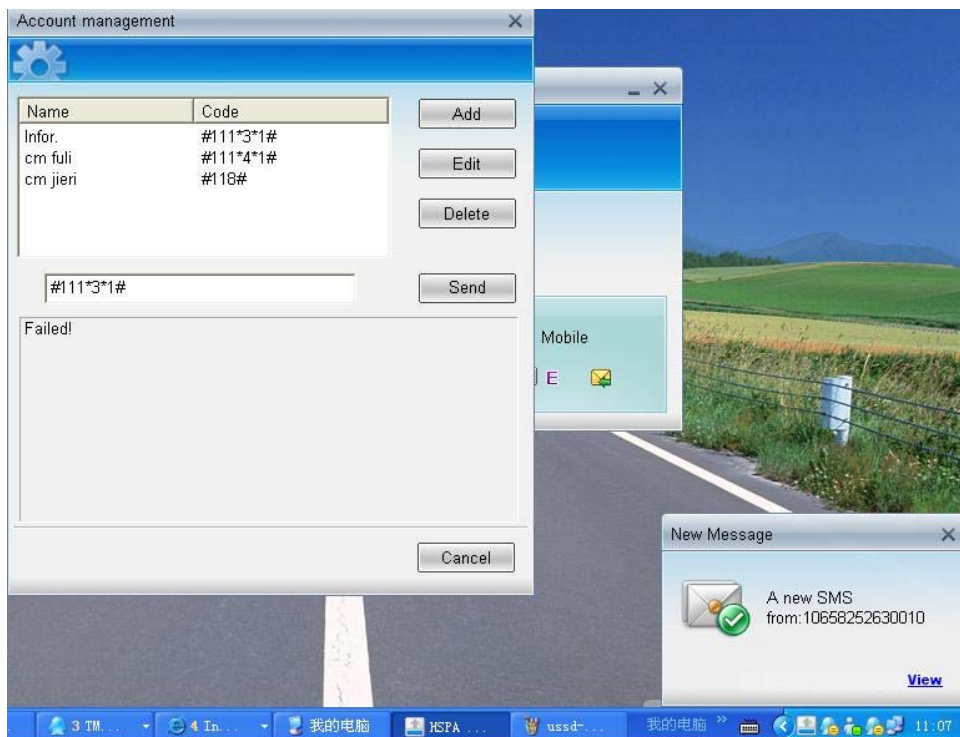

1. Please confirm whether your SIM Card and local network can support USSD or not?
2. Please confirm the right USSD number with your network operator,
3. Please confirm your device can support USSD.

MBD-600HU USB Modem is a convenient solution for wireless connection and USSD. This modem is widely compatible with HSDPA/EDGE/GPRS/GSM Network. More important this modem can support USSD number, through which you can manage you SIM Account conveniently.

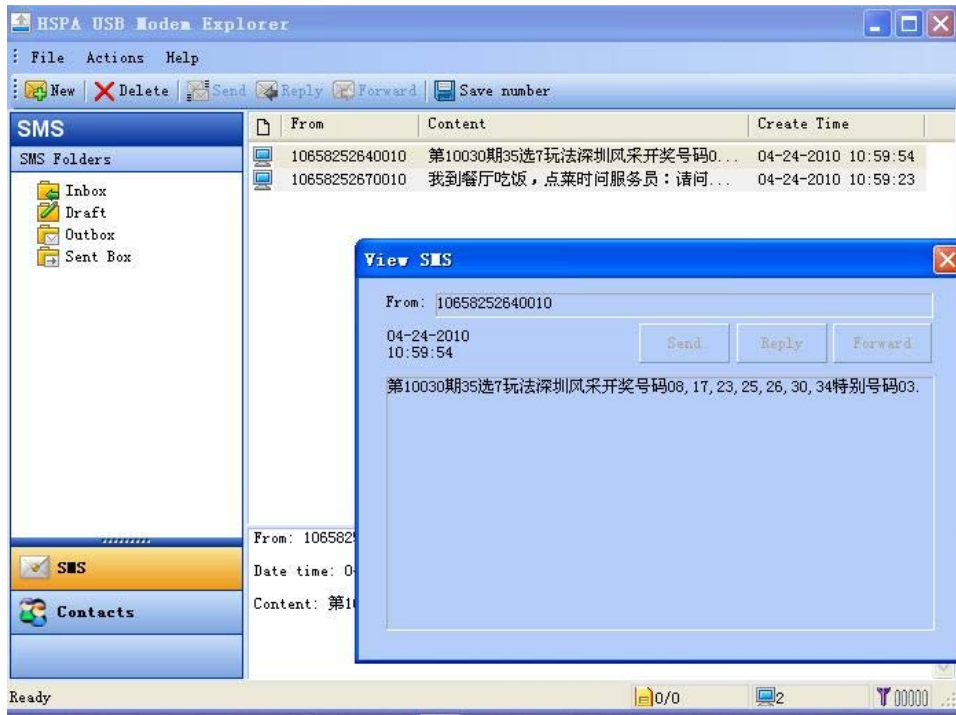

- 1) Run application and go to Account Management panel.

- 2) After adding the right USSD Number, then select and press "Send".

3) Around 1 second later you will receive a short message.

Notice:

1, sometimes it says "TIME OUT". It may be caused by SIM Card, local network, or modem initialization. Please re-insert the SIMCARD, and then restart the computer or the modem software. Go to the account management panel, add the right USSD Commands.
